DENY RIANTO

Fullstack Engineer · DevOps · Semarang, Indonesia

denyrianto@outlook.com github.com/denyryn linkedin.com/in/denyrianto portfolio.rianto.site

PROFILE

Fullstack Engineer with 2 years of hands-on experience shipping production web and mobile applications — from API design and database modeling to containerized deployment. Adept at writing clean, maintainable code and collaborating across time zones in remote-first teams.

EXPERIENCE

Hybrid Fullstack Engineer & IT Lead

Sept 2026 – Present

ID Career

National competition system built on Laravel, Inertia.js, and React — 90% of the build in the first week, vendor APIs integrated alongside. As sole developer, frontend and backend work cut overall app speed by 90%.

Laravel · Inertia.js · React · REST API integration · Git

Hybrid Fullstack Engineer

Sept 2025 – Present

Azura Labs

Three engagements: national competition platform in Go and Nuxt, ministry project in Spring Boot, SatuSehat integration in Laravel. As project engineer lead, reviews others' code while shipping his own and takes over in-flight features.

Go · Nuxt.js · Tailwind CSS · PostgreSQL · Docker · Java Spring Boot · jQuery · Bootstrap · Laravel

Remote Mobile Developer Intern

Apr – Jun 2025

PT. Muri Digital Grup Internasional

Cross-platform mobile delivery in a remote Agile team — sprint planning, daily stand-ups, and a shared API contract with the backend. Practiced cross-team communication and progress reporting.

React Native · Expo · Redux · Git

STACK

CORE	Go · Nuxt.js · Docker · Tailwind CSS · Laravel · Opencode · CI/CD
